

The Result in New York.

It is not creditable to the intelligence and patriotism of the Republicans of New York, to have suffered their Empire State to pass out of their hands at the late Election.— They were strongly in a majority there last year, not only on the Presidential ticket, but in all the departments of the State government—electing their Governor by sixty-five thousand majority over Judge Parker, the very popular and worthy man supported by the Buchanan party. In both branches of the Legislature, the Republicans were so strong that the other parties were essentially powerless.

At the late Election, the Buchanan party have carried the State ticket by some fifteen thousand majority, and annihilated the preponderance of our Republican friends in one if not in both branches of the Legislature. The contest for Assembly-men has been so close, and the political sentiments of some of the members elect partaking of both the Republican and American element, it does not appear to be quite certain who is to control the action of the lower house. But the Fillmore Americans with a small handful of members in either branch, talk quite confidently of their ability to shape the action of both—which is certainly possible, but not very probable. The Legislature meets in January, and there is no certainty that this question of majorities will be definitely settled before.

The question, however, may well be regarded—for it has been already and often asked, Why have the Republicans of New York State submitted to this inglorious defeat? Their great and noble commonwealth should lead the van, in upholding the Constitution and the rights of the People, against the encroachments of the Slave Power—why should they, at this crisis in our history—this turning point, perhaps, in the great contest that is raging between freedom and despotism in our fair land—why should they tamely yield up the vantage ground they had so nobly gained? There is an immense falling off in the popular vote of the State this year, as compared with that of 1856 and this deficiency is mainly upon the Republican side. It was not to have been expected that the full poll of the Presidential contest would be maintained. It is seldom maintained, in any State, the following year. But surely, it was for the other parties, if any—not for the Republican host of freedom—to have faltered in the late political conflict in the Empire State. Since the above was written, we have seen a nearly complete table of the vote of the State, by counties, which, as compared with the vote of last year, shows a falling off of 88,564 in the Republican vote, and of barely 4,429 on the Democratic side. The State has therefore been lost, not by any revolution in the public sentiment, not by any accession of Republicans to the Buchanan side—but simply by idleness and negligence of four times as many Republicans as would have been requisite to have maintained the ascendancy of their party in the State government.

We cannot but regard this recusancy as wholly inexcusable. There was some complaint made, and a good deal of dust raised, by certain unprincipled politicians in the city of New York, about the passage of certain laws for the better government of the great metropolis; but the most obnoxious of those laws was fully confirmed by the Court of Appeals, the highest Court in the State. And we are waiting to see a decent reason assigned for the conduct of those who, by their default, have given the Empire State into the hands of the enemy.

ARRIVAL OF THE FRIGATE NIAGARA.—The U. S. steam frigate Niagara, Capt. Hudson, arrived at this port yesterday morning, having sailed from Plymouth, England, on the 5th inst. She made the passage in 14 days and 4 hours, and had to contend against heavy westerly gales nearly the whole way across. The Niagara has proved herself an excellent sea-boat.

The officers and crew of the Niagara have made an impression in England highly favorable to the American Naval service. As has been already stated, the officers of the N., before leaving England, in order to evince their appreciation of their courteous reception in England, and of the civilities and hospitalities which they have experienced in London, Windsor, Southampton, Plymouth, &c., gave a public ball and supper at the Royal Hotel, Plymouth. The ball displayed in getting up the decorations and the whole affair, is a theme of praise in the English journals, and the entertainment was honored with the presence of a most distinguished company—the elite of the city and neighborhood. *M. F. Sun*

SINGULAR CALCULATION.—Anderson, the W. ard of the north, says that during the last twenty years, he has paid \$125,000 for advertising, \$215,000 for bill printing \$220,000 for bill posting. He has posted 355,000 square miles of paper on the walls of London, and in doing this he had used 1,363,000 pounds of paste.

Mr. Mason, Dear Sir,—I have been troubled with dandruff in my hair for many years, have tried very many preparations for the hair, such as lustrals and hair oils, all warranted to cure dandruff, &c. When I saw your alpine Hair Balm advertised, I thought it must be a humbug, like many of the others, and thought no more of it. I was advised by a friend who had used it, to say that I had tried it, and I did so, and my hair is now as soft and

your respectfully,
C. PORTER, Providence, R. I.

GENERAL NEWS.

Correspondence of the Daily News.

New York, Nov. 20, 1867.

Mr. Editor.—A horrid week of stabbing and assassinations is drawing to a close, and here is the detail:

Sunday evening, Nov. 18.—John Rife-ranger, a German grocer, No. 779 Greenwich st., was stabbed in his shop by Wm. Lee, a young man, who came in with two others and after drinking, got into a quarrel as to who should pay. Lee arrested.

Monday morning, 16th.—Henry Hamilton, a Wall st. clerk, 22 years old, fatally shot by John Moroney, at Johnson's oyster cellar, 388 Canal st. Quarreled about a girl. Moroney arrested. Hamilton dead.

Tuesday eve. 17th.—Francis Vincent, keeper of a lager beer saloon, 13 North William st., stabbed to death, without a moment's notice by 3 or four foreigners, French or Italian, who had called at his place and invited him to sit down and drink with them. Assassins escaped, but several arrests made.

Same eve. John Frazer, grocer, 176 West 17th st., dangerously stabbed by Thos. Sherlock. Arrested.—Same eve. John Taylor, a news carrier, garrotted and robbed in 4th Avenue by two unknown ruffians.

Wednesday morn. 18th.—A fight between two black men, Wm. Marshall and Robert Matthews in West Broadway, and Marshall stabbed by the other—doubts of his recovery. Matthews arrested.

Wednesday eve.—Mrs. Theresa Anderson, of 286 West 37th st., stabbed by a burglar whom she found secreted in her house.—Same eve., a German named Behm, keeper of a billiard saloon adjoining the "Volks Garten" in the Bowery, stabbed by ruffians, who were making a disturbance on his premises.

Thursday morn. 19th.—Three men and a young Scotch woman, Susan Dempsey, stabbed by a couple of foreign sailors, Spanish or Italian, at Alex. Driscoll's dance house, 277 Water st. One of the men, supposed to be an Irishman named Andrew McManus was instantly killed. Another—Richard Barrett, of N. J.—is thought to be fatally wounded. The case of the Scotch woman is supposed to be hazardous; and a sailor called "Charley" was less severely wounded.—The assassins escaped.

There is the total, down to last evening—viz ten stabbed, 1 shot, and 1 garrotted.—Several of the victims are dead, and some of the others will die. Seldom has the city presented, within a single week, such a gory picture of murder as this.

To the shocking record just given, may be not inappropriately added the conviction of Canemi the Italian, for the murder of policeman Anderson. The trial closed on Wednesday night, and the jury, after 4 hours' deliberation, rendered a verdict of wilful murder. He will be sentenced to-morrow. The last weekly statement of the city Banks accumulation of nearly Nineteen millions in specie. The St. Paul, and Niagara steamers, arrived yesterday, have brought from two to three millions more, and the next statement is expected to show an aggregate of fully Twenty-two Millions of Dollars in coin held by the Banks of this city, which is considerably more than they ever had before, at any one time. The resumption of specie payments is now supposed to be near at hand,—and I think it's high time especially as the city 'monsters' have terminated their arrangement for receiving at par the notes of the country Banks of this State.

We now go back to the old system, by which the New York city Banks as far as in them lies, operate to discredit all paper currency but their own,—refusing to accept any of it in payment of debts and compelling country Banks to establish agencies here for the prompt redemption of their issues, if they care not to have their customers fall a constant prey to sharpers in the guise of Exchange brokers. This is all wrong, and mean. Every body knows it, thousands constantly suffer by it, yet nobody has as yet devised a remedy. Nearly all the Western and Southern money is 10 per cent. discount, or more—very properly, no doubt, as regards much of it, but very wrongfully in regard to the rest. The consequence is, incessant vexation, delay and loss. When shall we have a truly safe, sound, and every where acceptable paper currency? The old Bank of the United States, whatever may be said against it, came the nearest toward realizing to the people this great desideratum, that has ever been done in this country.

About 500 of the "unemployed" have been set to work in Central Park, ditching, blasting, leveling, &c., and some 4 or 500 more will soon be employed there. But there are some 6 or 8,000 names of applicants for work before the commissioners; and these persons, or a portion of them, are still holding meetings at the Park or elsewhere, their orators demanding work and some of them proposing a forcible stoppage of their more fortunate fellows who have obtained employ, unless they can have work and bread. That there is already no small amount of actual suffering, by lack of employment, is certain. But, every body says we are going to have better times. So mote it be.

HONESTY THE BEST POLICY.—The following resolutions are now before the Legislature of Tennessee:—Resolved, That in the State of Tennessee the idea of forfeiting any existing liabilities or delaying to meet them is not entertained by any portion of our people.

That the State will meet the interest on her bonds promptly and pay the principle when due, and will, in addition to the present sinking fund now appropriated, set apart the whole land tax of the State for that purpose to the exclusion of all other objects, if necessary.

ITEMS.

The Mormons are said to have 20,000 Indian allies.

The news of the fall of Delhi was the occasion of great rejoicing in Canada.

Missouri has passed a bill providing for the prompt payment of the interest on its bonds.

Wabash county, Illinois, has appropriated her swamp land fund towards the construction of the Illinois Southern Railroad.

Bill holders on the Yates County Bank are said to stand a slim chance to realize more on their stock.

The contract for the Genesee Valley Canal extension was let last week for \$31,000—some \$10,000 below the engineer's estimate.

One hundred and fifty workmen were discharged from the Philadelphia Navy Yard on Saturday.

The will of the late Mrs. Dr. Rush, of Philadelphia, in effect makes her husband her sole and absolute legatee. The estate is estimated at one million of dollars.

There was quite a turn-out among the miners on the Broad Top (Pa.) Railroad, during the past week, in consequence of a refusal to work for \$1 25 per day.

GOOD ADVICE FOR HARD TIMES.—Henry Ward Beecher discoursed good counsel to his large congregation recently. We extract the following:—"As to food, you must not lose your appetite because you have lost your money. I tell you the will give a great way on these things. It may at first, cause you a struggle; and if your body says it can't eat, you must say to it you shall eat. Beware of substituting stimulating drinks for nutritious food. Thousands will go down to the drunkard's grave from the effect of the present crisis. Some men will drink to keep up their strength.—(I tell you to eat a plenty of good food and it will carry you through.) Brandy will carry you through, but it will be through the wrong door. Don't destroy your body because your affairs seem to be confused. Beware also of nervousness.—Don't allow yourself to get hot-brained and nervous, for then you would be like a candle put into a hot candlestick, that burns out at one end, and melts out at the other. Don't talk too much; it is wonderful how a man can talk himself away.—Don't make a reel of your mind to wind up and unwind your affairs on it every day. When you leave New York, make it treason to bring your business affairs across the water with you, and make it double treason to carry it to your family. Go to your bath when you come over; it would do you good to bathe every day many of you. Be cheerful in your family, and learn to enjoy its social circle. There are many men who are doing business in New York that only roost in Brooklyn—Multiply your recreations."

SPECIAL NOTICES.

HEALTHY BREAD.

JAMES PYLE'S DIETETIC SALERATUS IS among the most important improvement of the present day. Every family through out this land should be acquainted with its intrinsic value, and thereby escape the many evils arising from the use of common Saleratus—the caustic impurities of which are acknowledged destructive to health, by physicians generally. Common saleratus has the elements of caustic alkali, and readily sets on fire the coating of the stomach, thus deranging the digestive organs and paying the way of Dyspepsia and diseases of every kind. Children are the greatest sufferers and frequently die from infantile diseases, which in former years, were successfully treated, even without medical aid. But here is an article to be relied on.

James Pyle's Dietetic Saleratus, the result of many experiments, is entirely different from everything heretofore in use.—The perfection reached in purifying it, makes it as harmless to the stomach as flour itself, while in point of purity it surpasses the best baking soda, and will make bread, biscuit and cake, beautifully light, nutritious, and suitable for the most delicate stomach. Every lady that tries it will use no other.

Beware of Counterfeits.—Our great success has brought out a multitude of poisonous imitations. The genuine is packed in whole, half, and quarter packages, with the name of JAMES PYLE, on each package, and the name of the manufacturer, 313 Washington st. New York.

For sale at all the groceries in Newport, Providence and throughout the State. All

ALPINE HAIR BALM

Restoring Gray Hair to its original Color. IT is warranted to cure Baldness, Scurf, Dandruff, itching and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the Hair, which passes through the Hair and gives a natural color without the use of Hair Dye. It keeps the hair from falling off.

Mr. Mason, Sir.—I have found a Hair Restorative in your Alpine Balm, which has not merely changed the gray locks for their original, but has given them a glossy hue, which before they never had.

JOHN F. TRESCOTT, 227 Westminster street, Providence, May 20, 1857.

Providence, July 20, 1857.

C. A. P. Mason, Dear Sir—I am now using the Alpine Hair Balm, which I had of you, with most happy results. On the 30th of June last, my hair (which had been gray for more than six years) was fast falling off; but on the third application of the Balm it ceased falling, and is now firmly rooted, and very nearly its original color. By the use of one bottle, I confidently expect a complete, permanent, luxuriant and original head of hair. If every gray haired skeptic should try it, they would soon become "living epistles, known and read of all men," as having used the Alpine Hair Balm. Yours, &c.

JOHN F. TRESCOTT, 227 Westminster street, Providence.

TESTIMONY OF A LADY OVER 50 YEARS OF AGE.

Mr. Mason, Sir—I write to inform you how pleased I am with your Alpine Hair Balm.—My hair has been gray for a number of years, and I have been obliged to wear a front piece and cap, but have always found a difficulty when having a bonnet on to keep the front piece from working back and showing the white hair. Finally I concluded I would try your Alpine Hair Balm; I used one bottle only and my hair has come back to its natural color, which was brown. My hair is now perfectly free from dandruff and is soft and glossy. Very respectfully, SARAH LYON.

Providence, May 20, 1857. D. P. IVES & CO, 83 Milk street, Boston, Mass, sole agents for the United States and Canada.

Manufactured and for sale by C. A. P. MASON, Apothecary, No 167 Broad street. For sale in Newport by Hazard & Caswell, R. J. Taylor and B. H. Tisdale 623

NEW THIS MORNING.

LATEST NEWS.

BY TELEGRAPH TO THE NEWPORT DAILY NEWS.

FOUR DAYS LATER FROM EUROPE.

Arrival of the Atlantic.

NEW YORK, Nov. 22.—The Collins steamship Atlantic, Capt. Eldredge, from Liverpool Wednesday, Nov. 11, arrived at this port at 7 o'clock this evening.

The news by this arrival is highly important and interesting, both as relating to financial matters and general news.

The London Money Market was decidedly more stringent than advised by the Niagara's dates, and the Bank of England had still further advanced its rates to 10 per cent.

Consols on Wednesday were quoted at 89 a 89 1-8.

The capture of Delhi is confirmed. Lucknow has been relieved.

The King of Delhi has surrendered himself, and his life was spared; his two sons were shot.

FURTHER NEWS BY THE ATLANTIC.

NEW YORK, Nov. 23.—The Atlantic left Liverpool at 4 P. M., Nov. 11.

The Asia arrived out at Liverpool at 6.30 A. M., on the 9th.

The steamer Antelope was advertised to leave Liverpool for Portland direct on the 12th.

The Kangaroo arrived at Liverpool on the morning of the 11th.

The Bank of France raised its rate of discount to 8 per cent. on bills under 30 days, and 9 and 10 per cent. on 60 and 90 day bills.
